#### NOTES OF THE WEEK

THANKS -- Our thanks are due and hereby tendered to the gentlemanly Purser of the City of Spinery for files of castern of the trade winds has Spinery for files of castern papers and other favors. De Ou Saturday evening next Prof. Wells will to the Secretary becames the Charles of the give an entertainment at the Kawainbao Church, under the patronage of H. R. H. Princess Liliuokaland, for the benefit of the church.

Mr. C. S. Bartow will hold a sale at his with a mark moved harrying to and five. Rooms to-day at 11 o'clock a. m., of merchandise, lately arrived from New York, by the bkine Laura as howed will not make its agree R. Bursham. Purchasers will find it to their advantage to attend the sale. For an enumerated list ment to be found in the proper column in to-day's

Lef Three companies, A B and C, of the Prince's Own Guard, in command of His Majesty, paraded on Wednesday evening last, and presented a very spidierlike appearance, the marching was good, and the accuracy exhibited in obeying the word of command gave evidence of a high degree of promurch by, the time being too irregular, practice in this particular is greatly needed.

The Rawellan Guards on Friday last, repaired to Kulsokalous Plains there to engage in targe practice, the member of the corps making the best score to receive a medal in recognition of his supe rior qualities as a marksmen, the prize in this instance was carried off by Mr. Jack Lucas, which makes him the crack shot of the corps. Nothing like a good eye and steady nerve in a marksman and Jack possesses both.

The stramer City of Sydney on her last trip to the Coast, made the distance from the wharf of this port to the Cliff House in seven days and ten minutes, but was prevented from going into San Francisco port by a very dense fog a circomstance which made the venture an exceedingly hezardous one. Had it not been for this unfavorable circumstance she would have made the distance from wharf to wharf in seven days and three hours. The City of Sydney is the fastest boat of the

THE RACES AT EWA .- The horse races at the above place on the 28th inst., resulted in a total defeat of the native horse "Lopine," which according to the expectations of its owners was destined eclips all competitors. Mr. C. Lucas' borse "Creeper" came of victorious. "Lopine" was then pited against Mr. C. Machriane's horse "Daring," which also beat "Lopine." Quite a large sum of money changed hands and the successful buckers of the wicning horses came off the happy possessors

INDEPENDENCE DAY .- Friday last the 28th ult., was the anniversary of the Recognition of the Independence of the Hawaiian Kingdom, by France and England. The day was kept as a boliday by our citizens of all classes. The flags of all nations waved from the different legations, and a pleatiful supply of bunting was displayed from the Goverument building, the vessels in the harbor, and muny private residences and places of business. At 12 m. a salute was fired in honor of the occasion, and the day passed off, in a manner creditable to

THE HEALTH OF THE CITY .- Last week our advices, as to the health of the city, were that the typhold fever had well nigh disappeared. We regret to be compelled to record the fact of the breaking out afresh of the dresded disease, and that many families are suffering from its effects. We are not at this moment advised of the number of new cases, but their number is no happily large and the dis-ease seems to have renewed its attack with great violence. It is to be hoped however that it will not prove of a fatal character.

PROFESSOR ALBEANDER'S LECTURE.-The lecture delivered by Professor Alexander at the Lyceum, on Tuesday evening, the 25th uito,, was well attended and well received by an appreciative audience. The subject was skillfully handled by the lecturer, and afforded those present great satisfaction. We wish there were more such intellectual treats in Honolulu, in the shape of lectures, as the one Professor Alexander afforded, and we hope the Y. M. C. A. a. W o will procure other competent gentlemen to deliver lectures for the edification and enlightenment of the people. There is so place where an hour or two can be so profitably spent as in listening to a good almost any given aubject.

ELECTION OF OFFICERS. -At a regular meeting of Ladge le' Progress de l'Oceanie No. 24, A. F. & A. M., neid at the lodge room last week, the following officers were elected for the cosaing term, viz.: Jas. S. Lemon, W. M.; W. B. Wright, S. W.; F. J. Higgins, J. W.; D. Dayton, Orator; J. M. Oat, je., Secretary, re-elected; I. B. Peterson, Asst. Secretary, re-elected; J. S. Walker, Treasurer, re-elected Geo. A. Houston, Senior Expert: T. R. Lucas. Junior Expert, P. Opfergelt, Sen. Master Ceremoules; N. Cofford, Jun. Master Ceremonies; D. Kalakaus, Keeper Seals and Stamps; Juo. O. Dominis, Keeper Archives; T. Rhem, Deputy Grand Central Lodge; J. M. Ost, sen., Almoner; H. J. Agnew, Massier of Ennquet: A. McDuff, Tyler; O. J. Holt, Sen. Dencoe; W. Burkle, Jun. Dencon; Jas. Dodd,

MILITARY PARADE -On Friday last, the applyereary of the recognition by Great Britain and France of the Independence of these Islands, the Prince's Own Guard, commanded by His Majesty, paraded the principal streets, headed by the Royal Hawalian Band, making a very fine appearance. After this they proceeded to Kulsokshus Plains, where they drilled greatly to the delight of the spectators preseut, and the satisfaction of their drill-master. This is a very efficient corps, and composed of as good material as can be found on these Islands. The aptitude of the native in acquiring a proficiency in the drill is positively surprising. After drill they partook of refreshments for the "Inner man," at a 'luau" prepared for the occasion at which all did ustice. Another drill in the afternoon and a parade through some of the principal streets on their return to the Armory-the place of dismissalended the day's enjoyment. Everything passed off pleasantly and the day was one that will be long remembered by the members of the Prince's Own. Gnard. Some autusing incidents happened during the day, among the most annuling of which was the four pay or mistake of the Second Lieutenant of Company C. at the "lunu."

Supples Dears.-This community was greatly shocked on the afternoon of the 29th ulto., on learning of the sudden and unexpected death of Mr Samuel Levi Lewis, a much respected citizen, doing business to Nausan street as a dry goods merchant, at the well known stand called the "White House." The deceased was in the enjoyment of apparent good health up to the moment of his demise. He was sitting at the dinner table at his home on Beretapia street, with his wife and family when the dread messenger came, and without a moment's warning was summoned to quit all earthly scenes, and pass "that bourne from whence no traveler returns." Mr. Lewis was born in the city of New York, U. S., March 27th, 1842, and died November 29th, 1879, so at the time of his death he was 37 years, 8 mouths and 2 days old. The decossed was a man of quiet, anobtrusive babits, of gentle manners, and kindly disposition. He had hosts of friends, for all who knew him loved him ter his worth alone. As a husband and father, he was all that constitutes perfection in those relations-es a friend he was constant and confiding, for his sterling qualities of head and heart, filling all the requirements of those relations with promotitude and alacrity, which qualities were fully vindi-cated by the presence of the large concourse of citizens who turned out to pay their last respects to his mortal remains, which were borne to their last resting place on Sunday afternoon, the 30th nito. The funeral of Mr. Lewis was not only attended by the citizens generally, but also by the Odd Fellows and Firemen, of which organization he was an hon-ured and useful member. Deceased left a devoted wife and three interesting children," one son and two daughters, to mourn his loss, and for whom the sympathies of our cificens are actively excited. To his wife and children his loss is irreparable, and in this commonity has created a void not easily in this common with the entire population of this city we mitagle our deepest sympathies and condolence for the hereaved widow and children who have been so addendy and so unexpectedly benefit of the best of hasbands and kindest of fathers. The sudden demise of Mr. Lewis forcibly reminded us all of the surjug, that "is the midst of life we are in death," for we know not the hour when the dread summons may come which all must obey. two danguters, to mourn his loss, and for whom

covery on Monday with a mail from the East, which was followed by the steamer City of Sydney, with a large mail on Tuesday morning, made our people stir about rather lively. This was a verification of the old adage, "that it never rains but it pours." The receipt of two mails within twelve or sixteen hours of each other is such an unusual occurrance

Two Bray Days .- The arrival of the blene Dia

that it puzzles one to keep up with the times. In Memorian,-Among the many citizens of Honolulu who have been called to their final account, by an allwise and inscrutable Providence within a few mouths past, few will be more deeply missed by a large circle of friends than Charles H. Rose of this city. Mr. Rose died on the 1st inst., of typhoid fever after an Illness of some weeks. He of typhoid fever after an illness of some weeks. He was a sative of Waveriy, State of New York, aged 20 years and 8 months. Mr. R. has resided on these islands for a number of years and was universily respected, for his many amiable qualities of head and heart. He was an excellent business man, prompt, courteous and attentive, and gave astistaction to alls employers. Tous another citizen to the full bloom of manhood, has been cut off in his prime. Mr. R. leaves a widow and several children to mourn his loss, who have the deepest sympathics of our people. The funeral of Mr. R. was attended by a large concourse of citizens on Monday afternoon last. Harry Rose as he was familiarly called by bis friends will be missed in this community. "Requiescat in pace."

#### **CAUTION TO THE PUBLIC**

To avoid imposition, purchasers of Waltham Watches will observe that every genume watch, whether gold or silver, hears our trade mark on both case and movement. Gold cases are stamped "A. W. Co." and guarantee certificates accompany them. Silver cases are stamped "Am. Watch Ch. Waltham, Mars, Spering Silver," and are accompanied by guarantee certificates, signed B. E. Bobbies, Transurer, The name - Waltham' is plainly engraved upon all movements, irrespective of either distinguishing marks.

This castion is rendered necessary by exagen of the fact that our cases are frequently separated from our movements and put into worthloss unevented from our movements and put into worthloss unevented to determixers, and eice serie, this affecting injuriously the performance of the wanthes and vitining our guarantes, which is introduced to cover only our complete watches wholly made by or. It is necessary, also, because it is no notorous as to be a public scandal, that there is great found in the metal quality of both gold and aliver bases as now generally sold. We have demonstrated by frequest analystic that many gold and silver cases offered in the market are debased from from 10 to 20 per cent from the quality they assume to be. This is a fraced upon the purchaser, and accounts for the law price at which such cased watches have been sold.

have been sold.

We take this occasion to announce that we have recently entirely remodelled the very popular grades of full plate movements, known by the marks "Wein. Milery," "Applicate, Tracy & Co.," "Waitham Waich Co., "P. S. Bartlett." and "Broadway," giving to them not duly a luginy improved appearance, but great additional value, we embody in them such of the best results of our experience and study for twenty years as can be useful in this popular form of watch. We give these new model watches special recommendation to all who look for good performance and sold of excellence at moderate cost. The abertical watch makers, as well as watch to ware the police against castar watches. The superiority of Waitham goods, in all grades, is now so generally act was selected to a competition. Seeks and American, seem to have no resource but to present the attraction of two price. Their goods being inferior to ears, they have in sell them for what they can get. Times are hard, and people generally not knowing a good watch from a had one, very often alice a scaling release to decide them. Wham Morta, the centient English Lectures on Art and Labor Toulos, in a recent facture delivered before the "Trades Quild," agree:

"I know that the mostly alice that they do not know when they get them many alice that they do not know when they get them many alice to decide them. We Trades Quild," agree:

"I know that the manafacturers is a called," are is est on carrying our competition to the ithmost, competition of changement not of excellence, that they meet the bargain

tweether know our care whether they give a man his due, it know that the manufacturers, so called, are as set on carrying our competition to its utmost, competition of cheapoese, not of excellence, that they meet the hargain hunters half sway, and cheerfully furnish them with marty warss at the cheap price they are asked for, by means of what can be called by no prettier intensitant fraind.

We are much mistaken if this is what the positic warst or expectes, of us, at least. Good watches cannot be made when neither workmun nor employer has pride in his occupation; interest and pleasure in the work are both wanting, and both are ease offind in good watch making. How price, especially in watches, metals for public, will less performance and high repairs.

Our mission was, and ear husdress is, to make good wanches, whatever the cost; hadding fruity to this single purpose, we have seen improvement in quality and reduction in cost, by means of effectiveness and improvements in machinery and by material causes, ye steadily on together, and we can truly say, Waltham Watches in their respective grades, are the best warches made; and as to make any manual causes, ye with the proper year, and so making errors of the watches cannot be made for authing, even by machinery. We say to the public, by a good watch while you are about it, and year a proper price for it. The more you pay as bonest dealer the bother subdied you will be in the end; don't be decreived by chaspanese—quality descends faster than price.

For American Wartch Oo, of Watchen, Mass.
